

The **GX4®** is an intelligent gas monitor that has the ability to detect up to 4 gases simultaneously, giving you assurance that the air you and your employees are breathing is safe.

Real Time Monitoring

Monitor up to 4 gases simultaneously from the illuminated display screen, complete with a built in safety power reserve, ensuring the unit will run for 18 hours in the event that power is cut to the unit. The GX4® intelligent gas monitor tracks and logs the quality of the supplied air.

Advanced Alarm System

Fitted with a 103dBA staccato alarm. External alarms can be connected for remote operators.

3 Sensors Available For Added Protection

In addition to the carbon monoxide (CO) sensor, hydrogen sulphide (H₂S) and oxygen (O₂) sensors are now available. Many gases like carbon monoxide(CO) are not easy to detect and although low levels of exposure may not be immediately fatal, ongoing contact with the gas at low levels can have an accumulative effect causing health concerns.

Part Numbers

Part Number	Description
MT08400CE	GX4® Gas Monitor; UK/EU Plugs (No Sensors)
MT0842001	GX4® Sensor Cartridge; Carbon Monoxide (CO) - 10ppm ¹
MT0842002	GX4® Sensor Cartridge; Carbon Monoxide (CO) - 5ppm ²
MT0842003	GX4® Sensor Cartridge; Hydrogen Sulfide (H ₂ S) - 10ppm
MT0842004	GX4® Sensor Cartridge; Oxygen (O ₂) - 19.5-23%
MT08231	GX4® Aluminium Wall Bracket
MT08434	GX4® Auxiliary Cable 15m (50ft) with Bare Ends
MT08435	GX4® Auxiliary Strobe Light with 15m (50ft) Cable
MT08436	GX4® Auxiliary Strobe & Audible Alarm Tower; 15m (50ft) Cable
MT08422	GX4® Replacement Sensor Manifold Tube
