6 Outlet System Airline Filter

High Performance

The Radex® Airline Filter exceeds industry Standards, so you can be assured that operators will not suffer the consequence of breathing contaminated air. The large capacity 6-stage filter cartridge removes moisture and particulates to 0.5 microns (0.02mils) and odour from the compressed air stream providing clean and breathable air for your operator's safety.

Air Pressure Control

Both the standard filter for one person operation and the high flow filter for up to five operators have an outlet pressure regulator allowing you to adjust the air pressure.

Radex® Auto Drain Valve

Auto Drain Valve

An optional auto drain valve is available to fit to your filter that continually removes moisture from the filter housing, increasing the lifespan of the filter cartridge.

Wall and Floor Mounting System in one

With a unique twist and lock mounting system, it's never been easier to mount your filter to the floor or wall. No bolts are required, simply place in position and turn the lock.
